

AN108 – How to Upload Files to EVD

INTRODUCTION

Many of EVD's customers require the ability to transfer files of all types and sizes to EVD. To provide a uniform manner for such functionality and to avoid email congestion, we have created a Web interface to simplify this process.

To upload files to EVD, perform the following:

1. Obtain a username and password from EVD
2. Point your web browser to <http://www.enhancedvideodevices.com>
3. From the main menu select SUPPORT | UPLOAD FILES.
4. On the next page you will be asked for information which will identify you with the file you are uploading. Complete the form and click "Browse" to select the file on your system which you would like to copy to EVD.
5. After selecting the desired file, click "Upload" and wait while the transfer process completes (click "Upload" once only).
6. After successful transfer, you will see a message indicating the file was copied (in the event of a problem you will see a message indicating the nature of the failure).
7. The appropriate personnel within EVD will be automatically notified of the file's arrival.

For further questions or clarifications, contact your sales representative or the factory for additional support.
